

 **greenpaper**®

## **EcoKraft**®

### **Single-ply Liner**

Discover single-ply EcoKraft®, ideal liner paper for your packaging needs.

With moderate resistance to water absorption and robust resistance to bursting/explosion and compression, EcoKraft® ensures the integrity of your products. It surpasses critical tests like the Ring Crush, guaranteeing durability in your packaging.

It is made from 100% recycled fibrous material, combining strength and sustainability. Choose EcoKraft® for reliable and eco-friendly packaging.

## PRODUCT OVERVIEW

Liner paper with moderate resistance to water absorption, resistant to bursting or compression under a given applied force.

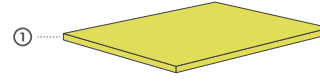

## KEY FEATURES

- Resistance to compression in the critical Ring Crush test.
- Made from 100% recycled fibrous material.

## RECOMMENDED APPLICATIONS

- Used in the formation of corrugated cardboard boxes (serving as the inner or outer liner of the structure).
- Packaging and envelopes.
- Suitable for flexographic or rotogravure printing.

## LAYER STRUCTURE

1. Face (brown fiber)

### Single-ply liner (M1)

## OBSERVATIONS

All physical properties are measured under controller conditions (23°C and 50% relative humid) values provided are for quality control purposes, based on factory reel samples.

## FINISHING SPECIFICATIONS

- Reel & pallet tolerance: +/- 1 mm.
- Reel diameter tolerance: +/- 2in.
- Joints: Max. 2 per reel, no joints within 20 cm of final winding.
- Winding uniformity: Max 1 cm uneven winding.
- Core protrusion: Not exceeding 1 cm on either side.
- Edge cut quality: Clean cut, free of residue.
